How a session runs

01

Briefing

About 1 h on dry land: preparing the mask, equalising, and why you keep breathing steadily. The instructor handles the gear check.

02

Shallow water

The dive starts in very shallow water, so the first breaths underwater happen where you can still stand.

03

The dive

About 30 min in the sea, to a maximum of 6 m, with a licensed instructor alongside the whole time.

All prices in EUR, VAT included. Card, cash and instalment payment accepted.
